

HRM-1

What is HRM?

- *Balancing H (I) and R (O)*
- *A system consisting of integrated subsystems*
- *Combination of formal and informal subsystems*
- *Process that links strategy formulation and implementation*

Who is he?

Morgan Stanley

What does John Mack want?

External triggers and not internal

Collaboration- Cross Selling- More money

MS1 (shark) to MS2 (nemo)

Subsystems are interconnected and aligned with each other

Formal and informal are aligned

CCD

Morgan Stanley

AMO framework

- *Ability*
- *Motivation*
- *Opportunity*

SHRM framework

- *Strategy*
- *Structure and systems*
- *Competency*
- *Behaviour*

SG Cowens

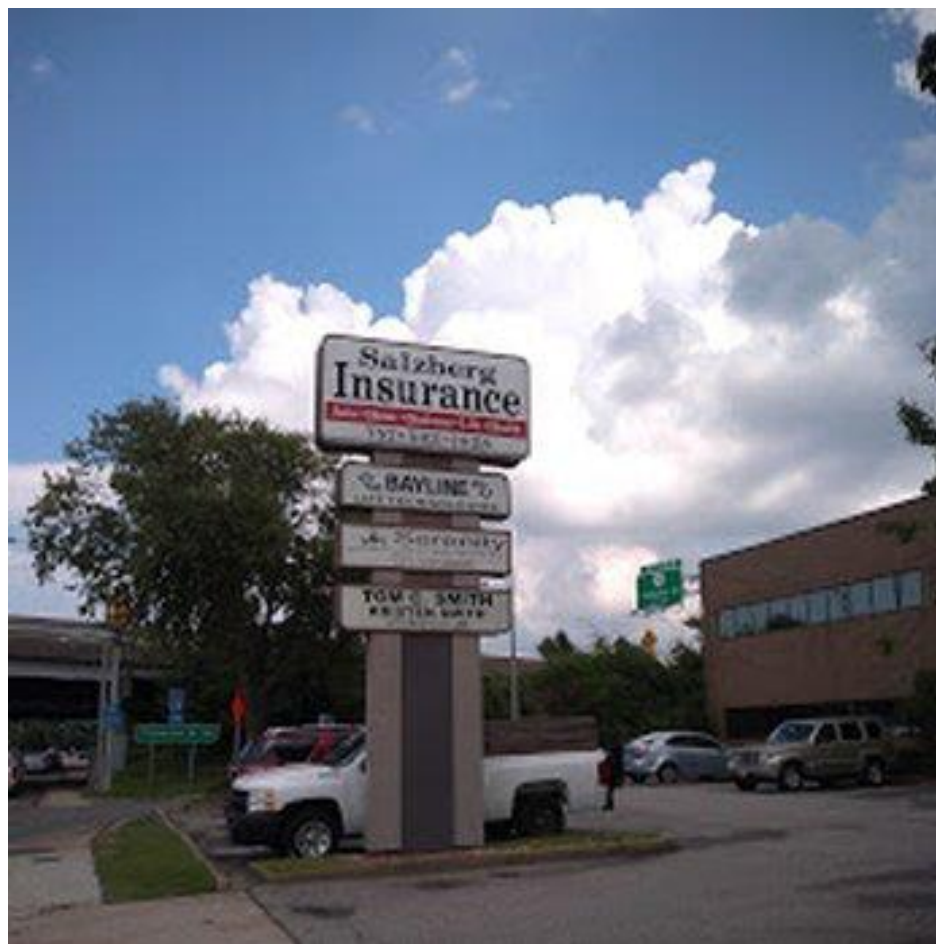

Errors in different stages of hiring process

1. Type 1 and 2 errors
2. JD not clear
3. Resumes contain lies
4. Psychometric- less specific and sensitive
5. Recruitment and selection - confusion

What about interviews?

Finally...

Large companies in India as well as in other advanced markets are resorting to astrology to find the best fit.

A few years back, the Salzburg Insurance Company in Austria released a recruitment ad looking for sales and management professionals. What makes the ad worth talking about is that the company specified that it wanted candidates with certain sun signs!

The ad read – “We are looking for people over 20 for part-time jobs in sales and management with the following star signs: Capricorn, Taurus, Aquarius, Aries and Leo.”

SG Cowens

Whom do you hire? N/M/K/A

In-class Simulation

1. *We are all biased*

a. Biases get strengthened when we hear opposing voices

b. We keep justifying

2. Bases come down with diverse teams?

3. We are the best judges of people.

4. Who follows the structure?

5. I am the best...

Rob parso

What is performance?

- Past/ Discrete?

Ideal PMS?

- Fair
- Objective
- Just

Problems with PMS

- Difficult to measure
- Biased
- Politics

Rob parson

Are numbers objective?

Are they important?

Purpose of PMS

- Reward and punishment
- Identify gaps for OD
- Influence behaviour

Next?

Xiamen airlines- Pay for performance?

Context

Chinese airlines industry

Growth, competition, shortages of pilots

Expectancy theory

Equity theory

Xiamen airlines- Pay for performance?

Change the compensation structure

Is it a simple decision?

MS2 to MS1

HRM as systems of integrated subsystems

Xiamen airlines- Pay for performance?

- ***Why to give***

Balancing Act

- Foreigners and native chinese pay differences
- External and internal concerns
- Lateral entry and internal development
- Increase hours (coaching hours) and safety

Xiamen airlines- Pay for performance?

2. What to give?

Permutations and combinations- perks, titles, money

3. How to measure how much?

BUT the most important?

4. Whom to give- What do they value (almost 3 years of interaction)

5. How to proceed....What about the others (non flying)?

6. Monitoring for danger signs

Managers- Katti

Understand the importance of bi-way communication

Recognize patterns

Sensitivity

- Routines followed
- Recognize deviances
- Correct deviances ASAP before the escalate
- Ensure swift de-escalation
- L/F windows of opportunities
